A MESSAGE FROM SECRETARY MURLEY:

The Florida Department of Community Affairs, Special District Information Program, is pleased to present *The 1998 - 1999 Official List of Special Districts*, a master list of Florida's special districts sorted by county. Various levels of government use this list to improve government efficiency, promote special district accountability, and encourage communication and coordination. Recent upgrades to the Special District Database Management System enable the database to sort and present special district data in new ways. We encourage the users of this publication to offer suggestions for improving future versions. Please direct questions, comments, and suggestions to the Special District Information Program at (850) 922-5431 or SUNCOM 292-5431. I hope *The 1998 - 1999 Official List of Special Districts* will be a valuable resource for you. As always, I wish the best to you all.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jim Murley".

INTRODUCTION

In 1989, the Florida Legislature adopted Chapter 189, *Florida Statutes (F.S.)*, the *Uniform Special District Accountability Act of 1989*. This act established general provisions for all special districts. To administer the act, the Legislature created the Special District Information Program (SDIP) within the Florida Department of Community Affairs (DCA). An annual responsibility of the SDIP is to update *The Official List of Special Districts* and distribute it by October 1 to those listed in Table 1.

Table 1: Required Distribution List

Governmental Agency	Governmental Agency
The President of the Senate	The State Board of Administration
The Speaker of the House of Representatives	All County Governments
The Auditor General	All Municipalities
The Department of Revenue	All County Property Appraisers
The Department of Banking and Finance	All Tax Collectors
The Department of Management Services	All Supervisors of Elections

Note: Upon request, the SDIP will provide one free copy to special districts in compliance with their annual fee requirements and will sell copies at cost to interested parties.

The Official List of Special Districts is primarily a master list of dependent and independent special districts sorted by the county in which it is located. The master list begins on page xiii. To find a particular special district in the master list, use *Appendix D* to determine the county in which it is located. The special district will be in alphabetical order under that county. If the special district is located in more than one county, refer to *Appendix C, Multicounty Index*. The special district will appear in the master list under each of those counties. *The Official List of Special Districts* contains many abbreviations. Table 2 is a list of the more commonly used abbreviations. In addition, because a wide variety of governmental agencies use this publication, Table 3 provides a list of special district information sources.

SPECIAL DISTRICT BASICS

Special districts have these characteristics:

- They are units of local special-purpose government.
- They have limited boundaries.
- They are created by general law, special act, local ordinance, or by rule of the Governor and Cabinet.

These entities are not special districts:

- General-Purpose Governments (Cities and Counties)
- School Districts
- Community Colleges
- Municipal Service Taxing or Benefit Units
- Seminole and Miccosukee Tribe Special Improvement Districts
- Boards providing electrical services that are political subdivisions of a municipality or part of a municipality

Special Districts must be dependent or independent.

- **Dependent Special Districts have at least one of the following characteristics:**

- Its governing body members are identical to the governing body of a single county or a single municipality.
- Its governing body members are appointed by the governing body of a single county or a single municipality.
- During unexpired terms, its governing body members are subject to removal by the governing body of a single county or a single municipality.
- Its budget requires approval through an affirmative vote by the governing body of a single county or a single municipality.
- Its budget can be vetoed by the governing body of a single county or a single municipality.

- **Independent Special Districts are defined as follows:**

- It is not dependent as described above.
- Its boundaries cover more than one county.
- Its boundaries exceed that of a single municipality.
- It was created by general law authorization or by special act.
- It operates as an independent political subdivision within defined district boundaries.
- It constructs and maintains basic public infrastructure or provides public services such as drainage, lighting, fire protection, etc. Many have revenue raising authority such as ad valorem taxation, or non ad valorem assessments, fees or charges on benefitted property.

THE SPECIAL DISTRICT INFORMATION PROGRAM

The SDIP is an important part of Florida's Local Government Financial Reporting System. The SDIP works closely with state agencies, local general-purpose governments, and special districts to improve governmental efficiency. Two full-time employees, an Operations and Management Consultant II and an Administrative Assistant II, work in the SDIP. In addition, an Attorney is assigned to the program to help with legal issues. The SDIP's rule is Rule 9B-50, *Florida Administrative Code*. In summary, the SDIP does the following:

- Serves as a clearinghouse for special district information by providing information and technical assistance to special districts, attorneys, legislative offices, state agencies, local general-purpose governments, the public and others.
- Improves special district accountability by conducting investigations when special districts fail to comply with certain reporting requirements. When it is necessary, the SDIP imposes fines, initiates enforcement proceedings and/or declares special districts inactive for a legislative dissolution.
- Prepares Declaratory Statements concerning the status (dependent or independent) of special districts when necessary.
- Publishes and updates the "Florida Special District Handbook" as necessary.
- Collects, maintains, and annually updates information about each special district in a computer data base. The SDIP uses this database to produce *The Official List of Special Districts*.

To pay for the cost of administering the SDIP, such as salaries, administrative overhead, printing, postage, and the computer data base, Chapter 189, *F.S.* requires DCA to charge each special district an annual fee. This annual fee is \$175.00 per special district. Upon written request, special districts with revenues less than \$1,500.00 that are not component units of a general-purpose government may have their fee reduced to \$50.00. Special districts with zero revenues may, upon written request, have their fee reduced to zero. Newly created special districts pay a prorated fee, depending upon their creation date.

Failure to pay the fee by the due date results in a \$25.00 fine, followed by an additional \$25.00 fine if the special district does not pay the fee by the second due date. Beginning with FY 1997/1998, Section 189.4044, *F.S.* requires DCA to declare inactive any special district that fails to pay the fee for two consecutive years by reporting them to the legislature for a legislative dissolution. This year, DCA relayed this to special districts in an invoice cover letter from Secretary Murley. In addition, a warning letter attached to the late notices reminded special districts of such possible action. Table 4 shows the special district annual fee compliance rate. Special districts meeting the requirements of a reduced or zero fee, and requesting it in writing, are in compliance with their annual fee requirements.

Table 4: Special District Annual Fee Compliance

Fiscal Year	Number Invoiced	Number in Compliance	Number in Non-Compliance	Compliance Rate
1996/1997	986	913	73	92.60%
1997/1998	998	950	48	95.19%

FISCAL YEAR 1997/1998 UPDATES AS OF JUNE 30, 1998

SDIP staff maintains information about each special district in a database (the Special District Database Management System) and uses it to produce *The Official List of Special Districts*. Three primary methods exist to keep the information updated.

Annually, SDIP staff sends a Registered Agent/District Update Form to each special district's registered agent. This form contains the same information about the special district presented in the master list. The registered agent updates it, signs it to certify its accuracy, and returns it to the SDIP. This year, in an attempt to improve the return rate of the form, the SDIP sent a reminder letter to every special district that had not returned the form by the due date. This resulted in the return of approximately 130 additional forms. However, as Table 5 shows, a number of special districts did not return the form. If an asterisk appears next to the special district's name in the master list, the special district had not returned the form to the SDIP by the time of printing. Therefore, the information presented may be outdated.

Table 5: Registered Agent/District Update Form Compliance

Fiscal Year	Forms Sent	Forms Returned	Number in Non-Compliance	Compliance Rate
1996/1997	982	625	357	63.65%
1997/1998	998	838	160	83.97%

A second way SDIP staff obtains information is directly from special districts. Chapter 189, F.S., requires special districts to provide to the SDIP documentation concerning their creation, dissolution, merger, amendments, and registered agent.

Third, state agencies, such as the Department of Banking and Finance, State Board of Administration, and the Office of the Auditor General, compare lists of their reporting entities to those listed in *The Official List of Special Districts*. If they notice any discrepancies, they contact the SDIP. The SDIP then contacts the entity to determine if it is a special district. Table 8 is a list of special districts added to the database this year. Some are newly created special districts, while others may be older special districts.

The following tables are an update of special district general data for FY 1997/1998.

DATA CATEGORIES

The Official List of Special Districts presents 14 data categories as follows:

Special District Name is the legal name of the special district. The SDIP does not make changes to the special district's name unless the special district provides supporting documentation to the SDIP.

Registered Agent's Name is the person that the special district designates to accept due process for the special district.

Registered Office Address is the mailing address where the special district receives its mail.

Telephone Number is the telephone number for the special district's registered agent.

Creation Date is the date that the special district was legally created.

Status refers to the **dependent** or **independent** status of the special district pursuant to Section 189.403, F.S. The SDIP does not make changes to the special district's status unless the special district provides supporting documentation to the SDIP.

Authorizing Documents refers to the special district's creation documents (Ordinance, Resolution, Statute, Special Act, Court Decree or Interlocal Agreement).

Statutory Authority refers to the statute governing the creation of the special district. Different kinds of legislative authority may exist for similar special districts. For example, community development districts that predate 1980 may exist under the authority of local special legislation. *Table 12: Special District Functions and Statutory Authority*, provides the statutory authority for various special districts.

Local Governing Authority is the name of the local government(s) (municipal or county) in which the special district operates. The local governing authority receives certain reports and information from dependent and independent special districts.

Functions refer to the role of the special district. *Appendix B* contains special districts sorted by function. *Table 12: Special District Functions and Statutory Authority* on the following page lists the special district functions.

Board Selection refers to the way a special district's board is selected as follows:

Gov. Appoints: The Governor appointed the board.

LGA Appoints: The local (general purpose) governing authority appointed the board.

Same as LGA: The board is the same as the local general purpose governing authority's board.

Similar to LGA: The board is similar to the local (general purpose) governing authority's board. It may or may not include all the members of the local general purpose governing authority's board.

Appointed: The board is appointed by an entity other than a single local governing authority or the Governor.

Elected: The board is elected by the electors in the special district.

Appt./Elected: The board has both appointed and elected members.

Other: None of the above.

Authority to Issue Bonds: If "Yes" is shown, the special district has the authority to issue bonds. If "No" is shown, the special district does not have the authority to issue bonds.

Revenue Source: This refers to the special district's actual revenue source(s) as follows:

Ad Valorem: Ad valorem taxes.

Assessments: Non ad valorem or special assessments.

Fees: Fees based on the services the special district provides.

TIF: Tax Increment Financing (Ch. 163, Part III, F.S.).

Other: None of the above.
